PRODUCT DESCRIPTION

Dôme has been designed with specific technologies to make rediscover true sound, without encroaching upon your living space. This high-end mini speaker succeeds in everything: refined design, sophisticated materials, “Made in France” high-quality design and 100 % Focal technologies from prestigious and renowned loudspeakers.

The [Flax technology](#) offers a distinct improvement in definition and better linearity in frequency response.

In-wall, in-ceiling, on furniture or standing, Dôme comes to your place naturally and embodies brilliantly and eloquently the true Focal sound.

When used with Dôme satellite speakers, the Dôme Subwoofer offers a sound comparable to that of much larger and bulkier speakers! To achieve this level of sound, the Dôme Subwoofer uses the very best in loudspeaker technology and a hybrid digital/analogue BASH® amplifier, which is furthermore used in all Focal subwoofers.
