PRODUCT DESCRIPTION

The M3scd has been designed to give outstanding CD reproduction and to be a digital hub. In addition to CD, it has 3 digital inputs: coax, optical and asynchronous USB. This makes it particularly useful for TV sound improvement. The technical performance is excellent; it has very low distortion, extremely low jitter, excellent signal-to-noise ratio, extremely flat frequency response, exemplary linearity and excellent channel separation.

All in all the M3scd gives excellent CD replay and can act as a versatile digital hub at the same time.

KEY FEATURES

- CD player and digital hub
- Excellent technical performance
 - Very good CD readability
- Multiple digital inputs - coax, optical and asynchronous USB
 - Very low jitter
- Excellent build quality and convenient size

SPECIFICATIONS

Frequency Response: 10Hz to 20 kHz (-0.2dB max.)

Signal to Noise Ratio: >117dB

THD (+ noise): <0.003% (10Hz to 20 kHz)

Channel Separation: 105dB (20 Hz to 20 kHz)

DAC: 24 bit Delta-Sigma (bit stream) dual differential 8x over-sampling

Outputs: 1x line level RCA, 1x RCA coaxial connector (Digital SPDIF), 1x Toslink optical connector (Digital SPDIF), 1x Trigger output - 3.5mm (1/8") mono jack +12V DC

Inputs: 1x RCA coaxial connector SPDIF 32-192 kbps (16-24 bit stereo PCM), 1x TOSLINK optical connector 32-96 kbps (16-24 bit stereo PCM), 1x USB type 'B' connector – Asynchronous data stream at up to 24-bit/96kHz, Trigger in

Dimensions (WxHxD): 440 x 100 x 380mm

Weight: 6kg

CRITIC REVIEWS

"The free-flowing, luxuriant sounds of Summertime are carried especially well by this combo." [Click for full review.](#)
