PRODUCT DESCRIPTION

Beautiful and elegant in appearance, sturdy and reliable in construction, created with the latest, innovative technology and genuine craftsmanship - all nurtured by Yamaha's long experience in the manufacture of musical instruments. This high-end lineup, the 3000 series, delivers supreme quality in every way. This is the manifestation of Yamaha's passion to give music lovers the ultimate in listening enjoyment - a tradition they've been carrying on and advancing for more than 125 years.

1

KEY FEATURES

- Rigid Streamlined Construction: provides strict anti-vibration protection and enables shortest cabling routes
- Large toroidal transformer, solidly mounted with independent three-dimensional inner frame
- Comprehensive low impedance design, shortened signal paths and copper-plated chassis
 - 6 mm thick top panel made of non-magnetic aluminium plate
 - Left-right symmetrical design for independent preamp and power amp blocks
 - Floating and Balanced Power Amplifier with MOSFETs
 - All-stage balanced transmission
 - Exceptionally low impedance through secure screw connections
 - Superior quality electronic volume control for optimum sound
 - Discretely configured phono amp
 - Exquisite, large level meters reflect the dynamics in the music
 - Meticulously designed and beautiful in appearance - just like a musical instrument
 - Original speaker terminals for high sound quality, as well as beauty and ease of use
 - Obsessive, meticulous switch design - elaborate, richly textured and easy-to-use

SPECIFICATIONS

Output Power (8 ohms, 20Hz-20kHz, 0.02% THD): 100 W + 100 W

High Dynamic Power/Channel (8/6/4/2 ohms): 120/150/200/300 W

Damping Factor: 250

Frequency Response: 5 Hz-100 kHz (+0 dB/-3 dB)

RIAA Equalization Deviation: 20 Hz-20 kHz +/-0.5 dB

Total Harmonic Distortion (CD to Sp Out, 20 Hz-20 kHz): 0.025%

Signal-to-Noise Ratio (CD): 103 dB (S: 200 mV)

Input Sensitivity (CD): 200mV/47k ohms

Dimensions (WxHxD): 435 x 180 x 464 mm

Weight: 24.6 kg

CRITIC REVIEWS

the absolute sound®

"If someone asked me to recommend a high-quality preamp and amplifier in a single box free from quirks and idiosyncrasies both sonic and functional, one that is reliable, trouble-free, and does just precisely what it's designed to do the A-S3000 would be very high on any short list." [Click for full review.](#)

"... Yamaha really pulled out all the stops with design and engineering with this one: it looks beautiful, sounds brilliant, has every feature and facility you're likely to need, and is powerful enough to drive even the most difficult loudspeakers." [Click for full review.](#)
